

A COMPLETE APPLIANCE, ELECTRONIC, & TOOL SOLUTION

Preparing Your Product for a Total Market Solution

intertek
Total Quality. Assured.

ENERGY EFFICIENCY

Intertek supports energy efficiency compliance through its accredited labs, offering testing for standards like ENERGY STAR®, AHRI, Eco-Design of Sustainable Products Regulation, and more to meet global energy efficiency requirements.

SAFETY

Intertek ensures product and system compliance with regulatory and industry standards across global markets - your single source for a truly global solution.

EMC & RADIO

Intertek offers extensive electromagnetic compatibility (EMC) testing services through its global network of labs, providing the capacity and resources needed to streamline testing for global markets in compliance and validation.

PERFORMANCE & VALIDATION

Intertek conducts comprehensive performance tests for appliances, power tools, and electronic devices, offering both predefined procedures and customized plans. This service helps optimize R&D resources and verify product claims to enhance branding.

SANITATION

Combine with ETL Safety and ETL Sanitation. Intertek provides ANSI-accredited sanitation testing and certification for food service and commercial appliances according to ANSI/NSF standards.

INFORMATION & INSIGHT

Intertek's global strategy tools enhance market flexibility, reduce costs, and improve roll-out predictability. Use Intertek Access to navigate product launches in global markets, while experts help optimize design efficiency, streamline processes, and minimize redesigns.

SOFTWARE & CYBER SECURITY

With a team of over 180 cybersecurity experts, Intertek provides services ranging from baseline cybersecurity assessments for IoT products to full Cyber-Assured Certification, ensuring compliance with current and future regulations.
